**Yellow Boat**  
OF HOPE FOUNDATION

**2025 MEDIA TOOLKIT**

**The Yellow Boat of Hope Foundation** is a **non-profit organization** in the Philippines that helps children in **geographically isolated and disadvantaged areas (GIDAs)** access education, starting with something as basic yet life-changing as a boat ride to school.

Our journey began in **2010**, when a group of friends learned about children in a coastal village in **Zamboanga** who had to **swim just to get to class**. Touched by their story, they donated a **single yellow boat** so the children could travel to school **safely and with dignity**. The bright yellow color was inspired by **city school buses**, an everyday symbol of access to education, and became our **symbol of hope**, since yellow is the color of hope.

Since then, that one act of kindness has turned into a **movement**. We've expanded our reach across the Philippines, providing over **5,500 boats** to communities where children would otherwise have no safe way to reach school. But our mission has grown far beyond the water. We now build **classrooms, dormitories, bridges, and e-learning hubs** — essential structures that make education more **accessible and sustainable** for students in last-mile areas.

The road hasn't been easy. We've faced challenges, from delivering boats to the most **remote islands** to raising funds for our growing programs, but our resolve has never wavered. Through partnerships with **individuals, schools, private groups, and public agencies**, we've built a **community of changemakers** who believe that no Filipino kid should be left behind.

Our work is rooted in one core belief: **education is the key to breaking the cycle of intergenerational poverty**. Every project—whether it's a **school boat, scholarship, feeding initiative, or livelihood support**—is designed to **remove barriers to learning** and help children **stay in school, thrive, and dream bigger**.

To date, our efforts have reached more than 170 adopted schools and more than 120 communities across the country, touching the lives of thousands of Filipino children and their families. *And we're just getting started.*
